Show and grow

Name:

Fontys › FOR SOCIETY

Instructions

15 minutes

- **Goal:**
  - Present a demo and analyze its connection to one or more Learning Outcomes (LOs) and the next step on the development scale.
    - The demo can contain pieces of case studies, proftask, PRP or own work
- **Your Preparation (This PowerPoint):**
  - **Demo (The 'How'):** What will you show live? (No reading documents!)
  - **Research (The 'Why'):** How did your research lead to this solution? (Prepare 1 slide: e.g., show a comparison, a key finding, or a design decision).
  - **Evidence:** Which portfolio product supports this?
  - **Growth (The 'Step-Up'):** How does this work show growth in complexity or quality compared to your previous work? (Be ready to compare: "Last time I did X, now I am doing Y, which is more complex because...").
  - **Reflection:** How does this link to which LO's and the development scale?
- **After the Show & Grow (Mandatory):**
  - **Upload to Portfolio:** Upload this completed presentation to Portflow.
  - **Link to LO's:** Link this new evidence to the specific Learning Outcomes you demonstrated during the session.
  - **Reflect:** Use the 'Evidence Description' field in Portflow to reflect on the feedback you received and to confirm the 'Growth Plan' (your next steps) you discussed.

Fontys

The 5 Steps: Where am I and where to go to?

- **Level: Undefined**
  - You have not yet undertaken any activities to demonstrate the learning outcome. There is no evidence in your portfolio or nothing is elaborated for the learning outcome.
- **Level: Orienting**
  - You have made a start and are exploring the possibilities to demonstrate the learning outcome.
- **Level: Beginning**
  - You are demonstrating this learning outcome by showing your knowledge by creating sufficiently challenging professional products in the case studies and the proftask/PRP for your portfolio.
- **Level: Proficient**
  - You have clearly shown several times, and in several different contexts, that you can apply the knowledge you gained by creating professional products at a sufficient level.
- **Level: Advanced**
  - You have shown multiple times and in complex situations that you are working on this learning outcome with good results. You have performed above expectations and are focused on continuous improvement. You demonstrate the learning outcome at a more complex level.

Fontys

Contents (Complete session 15 minutes max!)

- Demo
- Research
- Evidence
- Growth
- Reflection

- *Remove the placeholder texts in this presentation*

Fontys

LO1 – Basic Interoperability

- ***The 'What' (Definition LO):***
  - *After **conducting research**, you are able to **design and implement** a sustainable **infrastructure** based on the specified requirements of a **small SME**, taking into account the **different types of data, connections, protocols, communication, and applications.***
- **My Research (The 'Why'):**
  - *(Prompt: Why this solution? e.g., a comparison of protocols, a design choice based on requirements, or a key finding from documentation. Which DOT-framework methods you used?)*
- **My Evidence (Portfolio):**
  - (Prompt: Which product(s) in Portflow prove this? E.g., The research report, the network design, test report.)
- **My Self-Assessment (See Scale on Slide 3):**
  - *(Prompt: What level am I at? Why? E.g., "I am at 'Beginning Proficient' because I researched and implemented a product...")*
- **Plan Your Next Step:**
  - *Think about what you need to do after this to keep growing.*

- [ ] I request an official Formative Indication (FI)

Fontys

LO2 – Basic Securing

- ***The 'What' (Definition LO):***
  - *After **conducting research**, you are able to **design and implement modern and traditional basic security measures** across **all infrastructure domains** based on the specified requirements of a **small SME.***
- **My Research (The 'Why'):**
  - *(Prompt: Why this solution? e.g., a comparison of protocols, a design choice based on requirements, or a key finding from documentation. Which DOT-framework methods you used?)*
- **My Evidence (Portfolio):**
  - (Prompt: Which product(s) in Portflow prove this? E.g., The research report, the network design, test report.)
- **My Self-Assessment (See Scale on Slide 3):**
  - *(Prompt: What level am I at? Why? E.g., "I am at 'Beginning Proficient' because I researched and implemented a product...")*
- **Plan Your Next Step:**
  - *Think about what you need to do after this to keep growing.*

- [ ] I request an official Formative Indication (FI)

Fontys

LO3 – Basic Automation

- ***The 'What' (Definition LO):***
  - *After **conducting research**, you are able to automate the **deployment** of **an infrastructure, application, and business process** by **programming scripts,** based on the specified requirements of a **small SME.***
- **My Research (The 'Why'):**
  - *(Prompt: Why this solution? e.g., a comparison of protocols, a design choice based on requirements, or a key finding from documentation. Which DOT-framework methods you used?)*
- **My Evidence (Portfolio):**
  - (Prompt: Which product(s) in Portflow prove this? E.g., The research report, the network design, test report.)
- **My Self-Assessment (See Scale on Slide 3):**
  - *(Prompt: What level am I at? Why? E.g., "I am at 'Beginning Proficient' because I researched and implemented a product...")*
- **Plan Your Next Step:**
  - *Think about what you need to do after this to keep growing.*

- [ ] I request an official Formative Indication (FI)

Fontys

LO4 – Manage & Control Basic

- ***The 'What' (Definition LO):***
  - *After **conducting research**, you are able to **design** an **infrastructure** based on the specified requirements of a **small SME** that considers certain **management aspects and processes** and complies with local **laws and regulations**.*
- **My Research (The 'Why'):**
  - *(Prompt: Why this solution? e.g., a comparison of protocols, a design choice based on requirements, or a key finding from documentation. Which DOT-framework methods you used?)*
- **My Evidence (Portfolio):**
  - (Prompt: Which product(s) in Portflow prove this? E.g., The research report, the network design, test report.)
- **My Self-Assessment (See Scale on Slide 3):**
  - *(Prompt: What level am I at? Why? E.g., "I am at 'Beginning Proficient' because I researched and implemented a product...")*
- **Plan Your Next Step:**
  - *Think about what you need to do after this to keep growing.*

- [ ] I request an official Formative Indication (FI)

Fontys

LO5 – Professional standard

- ***The 'What' (Definition LO):***
  - *You **apply** professional practice, both individually and in teams, in the areas of project organisation, communication with stakeholders, exploratory research, and reporting.*
- **My Research (The 'Why'):**
  - *(Prompt: Why did you approach this the way you did? What reasoning, choice, or insight underlies what you did for this learning outcome?)*
- **My Evidence (Portfolio):**
  - *(Prompt: Which product(s) in Portflow demonstrate that you meet this learning outcome? Refer to specific items.)*
- **My Self-Assessment (See Scale on Slide 3):**
  - *(Prompt: What level am I at? Why? Support your assessment with a concrete example from your work.)*
- **Plan Your Next Step:**
  - *Think about what you need to do after this to keep growing.*

- [ ] I request an official Formative Indication (FI)

Fontys

LO6 – Personal Leadership

- ***The 'What' (Definition LO):***
  - *You **take the initiative** in asking for, and reflecting on, feedback. You **identify your own core values** as the basis for your study career and professional development..*
- **My Research (The 'Why'):**
  - *(Prompt: Why did you approach this the way you did? What reasoning, choice, or insight underlies what you did for this learning outcome?)*
- **My Evidence (Portfolio):**
  - *(Prompt: Which product(s) in Portflow demonstrate that you meet this learning outcome? Refer to specific items.)*
- **My Self-Assessment (See Scale on Slide 3):**
  - *(Prompt: What level am I at? Why? Support your assessment with a concrete example from your work.)*
- **Plan Your Next Step:**
  - *Think about what you need to do after this to keep growing.*

- [ ] I request an official Formative Indication (FI)
