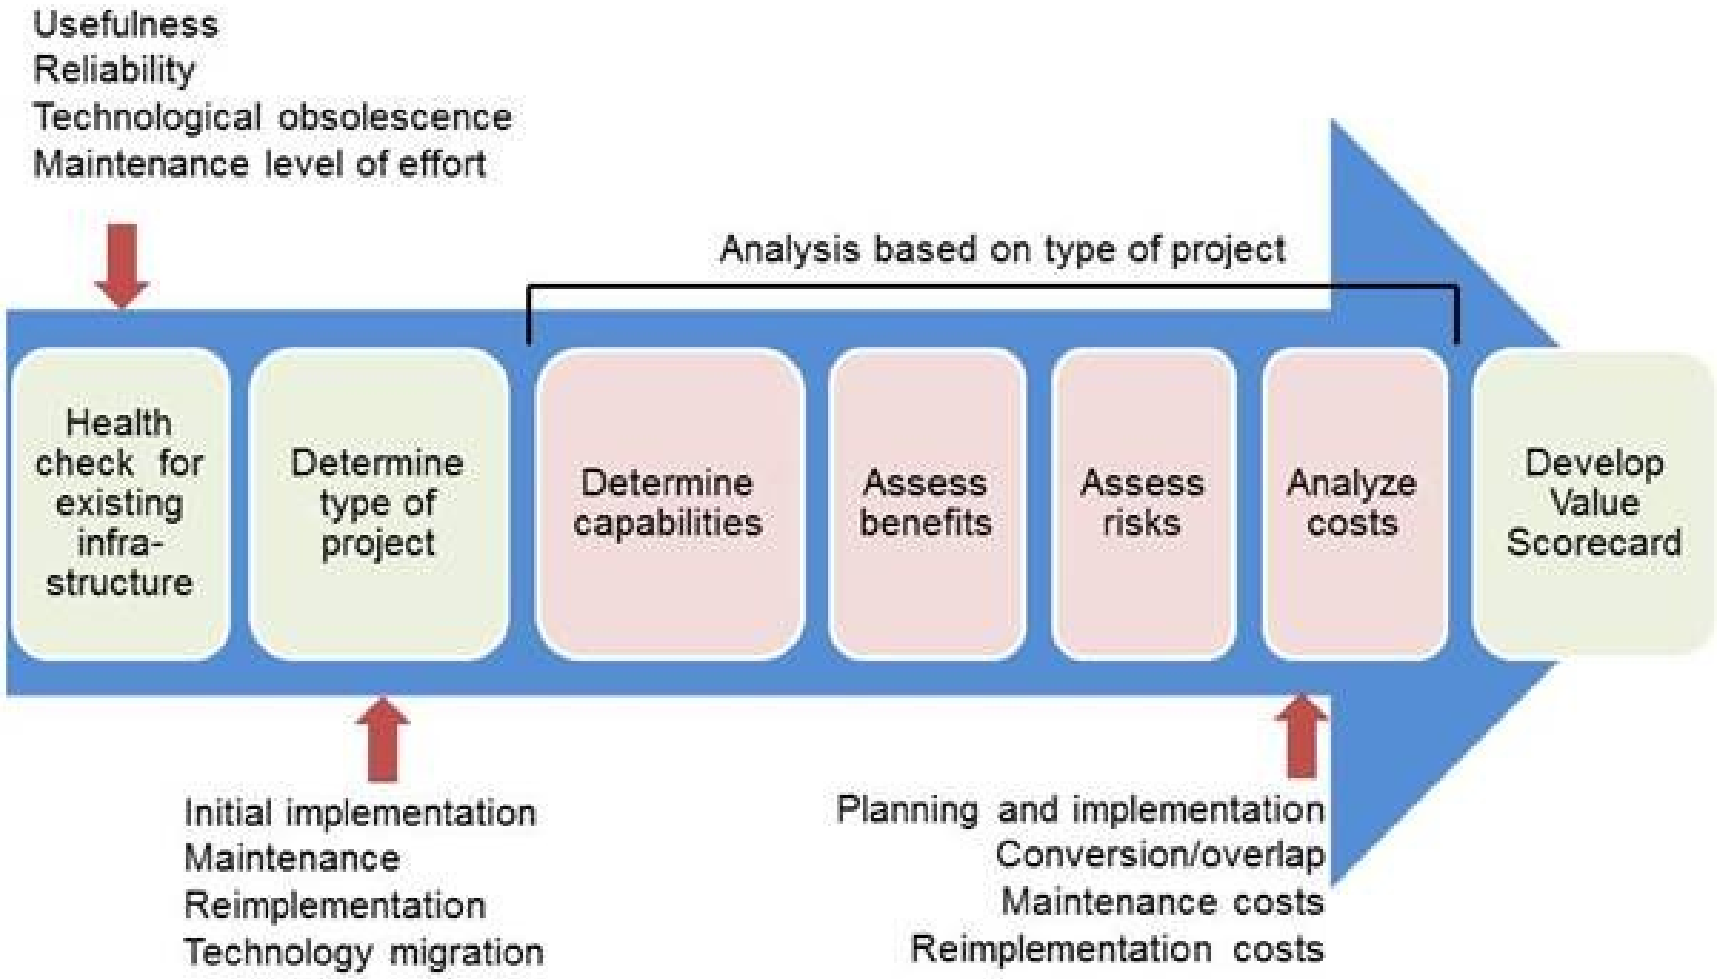
Project infrastructure



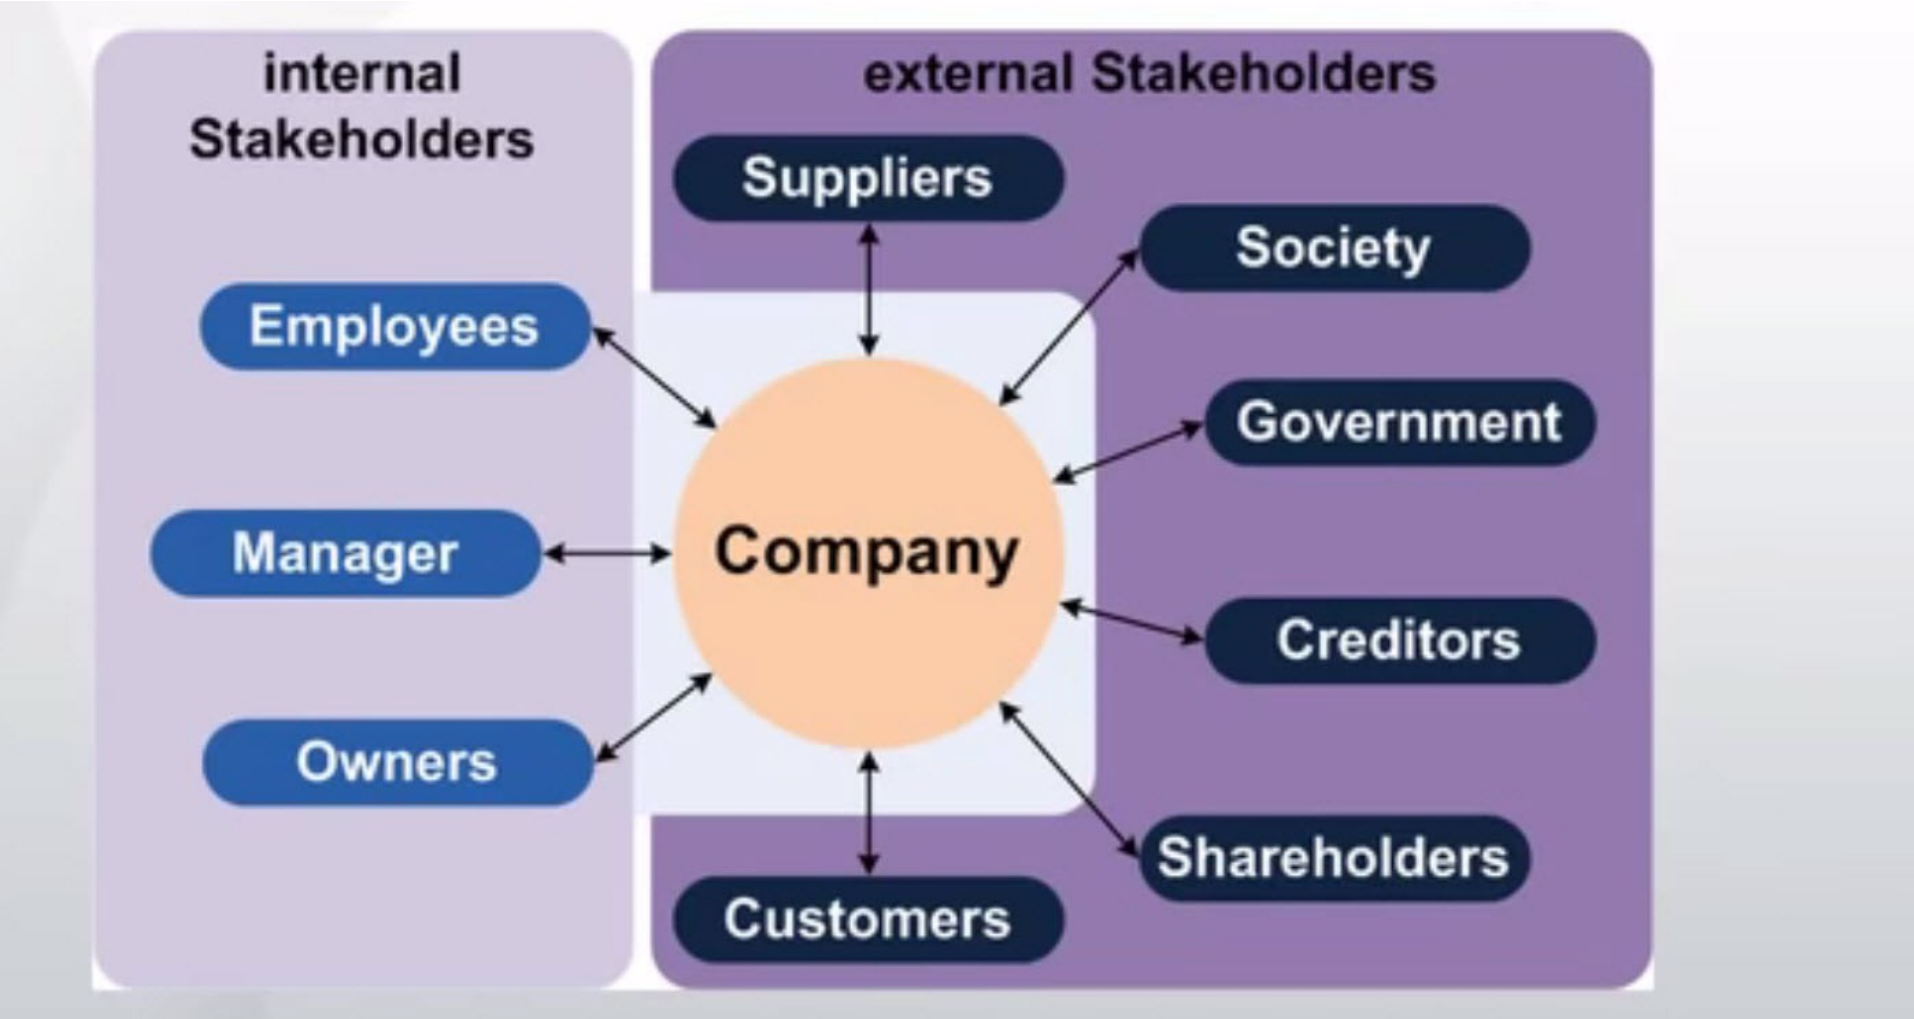
Fontys

Stakeholders are:

- “Individuals and organizations who are actively involved in the project, or whose interests may be positively or negatively affected as a result of project execution or successful project completion.”
- Your project’s stakeholders are the people or groups who have something to gain (or lose) from your project’s outcome.
  - Customers/purchasers, who want value for their money.

Fontys

Types of Stakeholders



Fontys

Stakeholder Analysis

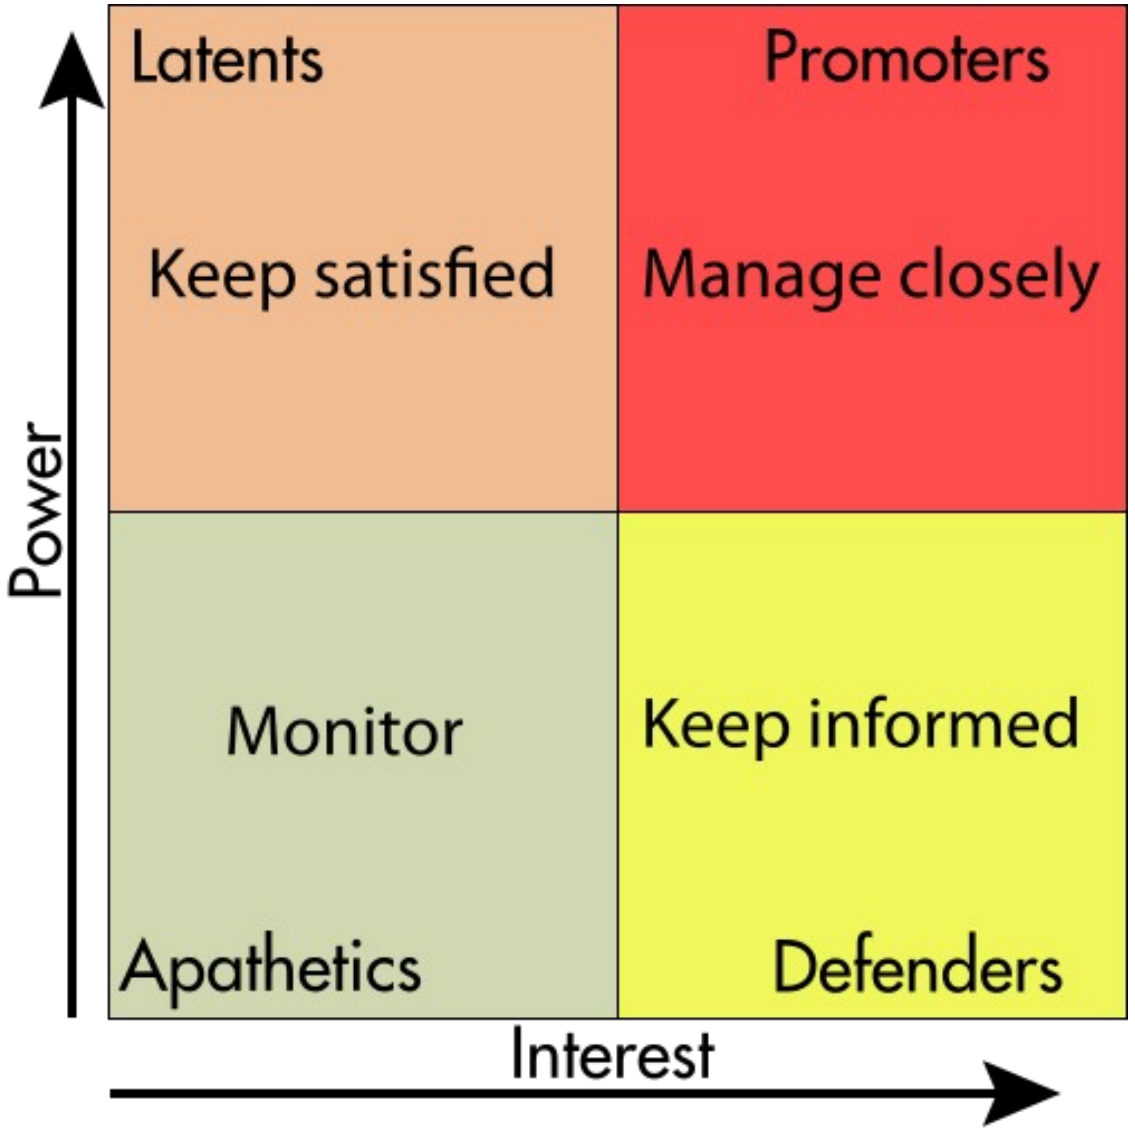
- Identify individuals, groups or companies that will influence or impact the project.
- Document relevant information about all such individuals, groups or companies and about their interests and involvement in the project.
- Document how these individuals and companies can influence the project and how they can be impacted by the project.
- Determine their levels of importance.
- Determine how to communicate.

Fontys

Stakeholder Analysis

Process where you identify relevant stakeholders and analyze their interests and power.

- Ask questions:
  1. Who are the relevant stakeholders?
  2. What are the interests of each stakeholder?
  3. What is the power of each stakeholder?
  4. How/what are coalitions likely to form?



Fontys

Question 1: Who are the relevant stakeholders?

- Answer this question by drawing internal and external stakeholder maps.
- Recognize that all these groups are not relevant to every situation; examples:
  - Some businesses sell directly to the public and will not have retailers.
  - A certain stakeholder may not be relevant to a particular decision/action.

Fontys

Question 2: What are the interests of each stakeholder?

- Analyzing stakeholder interests includes addressing.
  - What are the groups' concerns?
  - What does the group want/expect from their relationship with the firm?

Fontys

Question 3: What is the power of each stakeholder?

- Stakeholder power is the ability of a group to use resources to make an event happen or to secure a desired outcome.
- There are 4 types of stakeholder power:
  - Voting power
  - Economical power
  - Political power
  - Legal power

Fontys

Question 4: How are stakeholders coalitions likely to form?

- Stakeholder groups often have common interests and will form temporary alliances to pursue these common interests.
  - Coalitions are very dynamic (can change at any time)
  - Coalitions are increasing international
  - International alliances, coupled with media interest, can be a very powerful strategic force for companies

Activity: Stakeholder Mapping for IT Projects

- **Objective:**

  Help IT students identify, categorize, and manage stakeholders in software development or IT projects.

Fontys

Activity Steps:

- Provide an IT-related scenario
  - Such as: Developing a university mobile app.
  - Creating an e-commerce website for a local business.
  - Implementing a new cloud-based attendance system.
  - Enhancing cybersecurity for a corporate network.

Fontys

Group discussion:

- **Objective:** Each group presents their stakeholder map and explains their choices.

Feedback and Reflection:

- Why are some stakeholders more influential than others?
- How would the approach to communication differ for each type?
- What strategies ensure stakeholders engagement and satisfaction?

Fontys

Learning Objectives

- Understanding the Stakeholder
- Understanding the internal and external stakeholders
- Making a stakeholder analysis
- Understand the organization and operations of an organization.
- Research about the client or the given stakeholder

learning outcomes

- Learning outcome 4: Personal Leadership
- Learning outcome 5: Professional standard
